

## Studio Connections – REFERENCE PLUS

### Reference Plus Speaker Cable

#### Measured Technical Data

Conductors: 3 sq mm (12 AWG): 784 copper-silver strand phase linear hybrid

Primary dielectric layer: Olefinic/nitrogen foamed primary

Second dielectric layer: Solid polyethylene secondary skin

Lay: Orbital twist, 140mm lay length

Capacitance 35pF/m, 11pF/ft

Resistance per conductor 0.011 ohms/m, 0.0033 ohms/ft

Overall jacket Crystal clear PVC

Overall diameter 12.5mm/ 0.5 inch

Termination: pressure crimp finished with silver solder

The cable is available as boxed stereo pairs or as Bi-wire sets terminated with our gold plated 4mm banana plugs or spade connectors.
